

Press release for immediate publication 6th June 2019.

June 6th, 2019 Streamstar, a.s. - a high-tech company specializing in software development and the manufacturer of cutting-edge hardware tools for the live sports production and streaming industry is pleased to announce and welcome Mr. Kevin Fitzgerald as Sales and Business Development Director.

Kevin will be responsible for driving sales, revenue and the development of business opportunities as well as expanding Streamstar's reseller network in the EMEA region. His business experience and reputation in the broadcasting industry made Kevin the natural choice for Streamstar's next stages of growth.

Kevin Fitzgerald said: *"I am delighted to join Streamstar. Their product range is ideal for the live sports production industry's rapidly growing need for quality content on the Web, OTT, or traditional broadcast platforms. Ease of use, professional features and broadcast quality results produced in extremely cost-effective way are Streamstar's foremost attraction."*

Rado Toth - CEO Streamstar, a.s. said: *"We are very excited to welcome Kevin to our team and looking forward to his contribution in building new relationships with end users and partners."*

Kevin Fitzgerald can be contacted at: fitzgerald@streamstar.com

About Streamstar:

European technology company specialising in software and hardware solutions and live production tools for the streaming video industry. Streamstar's innovative concepts and its all-in-one live production systems have revolutionized the streaming industry. Streamstar has become the industry's trend-setter, changing the way live events are produced. Streamstar also pioneered the IP revolution designing large scale remote production systems years before any other competitor.

Its experience, know-how and focus on innovation, technological advances and user-friendly workflows has enabled Streamstar to create exceptional live production systems with a high degree of automation and flexibility. A single operator can easily perform complex tasks and produce professional-quality, multi-camera video productions in an extremely cost-effective way. Streamstar systems deliver professional results at minimal investment. They are being used all over the world by users ranging from small productions to large TV networks.
